- Matthew Becker (officer)
- Guido Santella (member)
- Scott Jurcik (member)
- Jeremy Flaugh (member)

### CTF Information

This CTF was offered by Invoca, an AI-powered conversation intelligence company. It followed the format of a Jeopardy-style CTF, where challenges can be selected from a board that are worth a certain number of points. If the flag is discovered, the points are awarded. A leaderboard for individuals and teams was maintained by Invoca, the sponsoring company.

Skill levels ranged from beginner to advanced. There were some skilled competitors, with the top team scoring 6772 points. The chapter team (ISC2PH) performed well by capturing 5th place with 1949 points. Players competed throughout the 3-day CTF window. The top 3 scorers were awarded gift cards via email (officers were exempt from awards) in the following amounts:

- 1st \$200
- 2nd \$100
- 3rd \$50
